DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Sunday, 12 May 2024 at 05:41 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Moderate air pollution is expected across much of southern and western England, Wales and parts of NI and Scotland due to the continued warm conditions across the UK. Elsewhere mainly Low levels of air pollution persist.

Tomorrow: Areas of Moderate levels of air pollution persisting across parts of northern England and Scotland for Monday.

Outlook: Low levels of air pollution expected across much of the UK into the outlook period as cooler more unsettled conditions return. Some patches of Moderate air pollution will likely persist day on day however.
